# A NEW NAME BASED ON LONG-STANDING EXPERTISE

In 2007, the Lipoid Group acquired Cosmetochem AG to strengthen its business in the cosmetic market. Cosmetochem AG, a Swiss-based company, is internationally renowned for its production of high quality botanical extracts and actives. For more than 35 years Lipoid has been manufacturing high value lecithins and phospholipids derived from plant seeds and a wide range of natural phospholipid-based delivery systems. On the other hand Cosmetochem provides the actives and extracts that need to be encapsulated. The perfect fit!

In recent years, both group partners have already worked closely together. As a result, the two companies merge their cosmetic activities to form Lipoid Kosmetik AG. Based on their original expertise on both fields, the new company will continue to offer high quality natural products for use in skin care, skin repair and other applications in cosmetics. Thanks to synergy effects Lipoid Kosmetik AG will be able to focus even more on value added product innovations.

**Actives** 

Actives			Skin Care	Hair Care	Bath & Shower	Baby & Sensitive Care	Oral Care	
Acacia Collage	n™ PF	150154.100.2	•	•	•	•		
data and with similar prop	air moisturiser with <i>in vivo</i> claims substantiation erties to human collagen (also available Acacia 221.00.2 and Acacia Collagen™ BG (PF), 401012.100.2).	<ul> <li>moisture-retaining</li> <li>skin softening</li> <li>preservative-free (self preserving system)</li> </ul>						
Anti-Irritant Co	omplex I	192600.00.2	•	•	•	•		
	sabolol, glycyrrhetinic acid from liquorice and int of sensitive and damaged skin.	<ul> <li>soothing</li> <li>anti-irritant</li> <li>anti-inflammatory</li> <li>preservative-free (self preserving system)</li> </ul>						
Citrolumine 8 <sup>TI</sup>	М	400817.00.2	•					
	Based on liposomal-encapsulated citroflavonoids extracted from citrus fruits, Citrolumine $8^{TM}$ is a safe, plant-derived cosmetic active which fades age spots, brightens skin tone and increases overall skin luminosity. It has been shown to be effective in both <i>in vitro</i> and <i>in vivo</i> studies.	<ul> <li>fades age spots</li> <li>brightens skin tone</li> <li>increases skin radiance</li> <li>preservative-free (self preserving system)</li> </ul>						
Colla-Gain™		400941.00.2	•					
	Active complex derived from pomegranate flowers increases skin density, stimulates collagen synthesis, inhibits collagen breakdown and reduces the appearance of wrinkles.  For use in skin care and anti-ageing products in particular.	<ul> <li>stimulates collagen build up</li> <li>inhibits collagen breakdown</li> <li>increase skin density</li> <li>smoothes skin &amp; reduces appearance of wrinkles</li> <li>preservative-free (self preserving system)</li> </ul>						
Collagen Stime	ulation Factor MAP	160905.00.2	•					
	Liposomal-encapsulated, stabilized vitamin C. <i>In vitro</i> claims substantiation for stimulation of production of skin's own collagen. Improving skin elasticity and reducing wrinkles.	<ul> <li>collagen stimulation</li> <li>anti-wrinkle</li> <li>preservative-free (self preserving system)</li> </ul>						
Depigmentation	on Factor 2U	161005.00.2	•					
	earberry extract. <i>In vitro</i> and <i>ex vivo</i> studies show d reduction of melanin in melanocytes.	<ul> <li>skin lightening</li> <li>fades age spots</li> <li>increases skin radiance</li> <li>preservative-free (self preserving system)</li> </ul>						
Flavonoid Com	plex SC PF	400522.00.2	•					
	onal active from <i>Ginkgo biloba</i> leaves.	free radical scavenger     antioxidant						

Independent tests show it provides better protection against UVB than vitamin C+E control, is an effective free radical scavenger and stimulates cell growth.

- antioxidantUVB protectioncell regenerationparaben-free

Actives		Skin Care	Hair Care	Bath & Shower	Baby & Sensitive Care	Oral Care	
Green Tea Herbasol® Extract PG PF	220150.101.2		•	•	•		
Extract from green tea with independent <i>in vitro</i> data to show protection of keratinocytes against damage by UVB.	<ul><li> UVB protectant</li><li> antioxidant</li><li> free radical scavenger</li></ul>						
GU-61 Standard Herbasol® Complex	150201.06.2	•					
Combination of active agents derived from liquorice and alpine lichen for general skin care especially blemished, problem, adolescent skins and anti-acne products.	<ul> <li>antibacterial</li> <li>antifungal</li> <li>anti-inflammatory</li> <li>preservative-free (self preserving system)</li> </ul>						
Herbasome NEW		•			•	•	
Liposomally encapsulated plant derived waters to provide human skin with a maximum amount of moisture.  The increase of skin moisture up to 39% has been proven in a <i>in vivo</i> study. Herbasome is a 100% natural product.  Available products: Apple Water Herbasome (401016.90.2) Pear Water Herbasome (401017.90.2) Carrot Water Herbasome (401018.90.2) Coconut Water Herbasome (401019.90.2)	<ul> <li>delivery of plant water into the skin</li> <li>moisturizing</li> <li>preservative-free (self preserving system)</li> <li>natural</li> </ul>						
Hydrocos P	160305.00.2	•					
An active moisturising additive for use in cosmetic creams, etc. The formulation matches the Natural Moisturising Factor in the skin.	• moisturising						
Phytoderm Complex G	150600.00.2	•			•		
A specially purified complex from liquorice root. <i>In vivo</i> claims substantiation as an effective anti-inflammatory and anti-irritant agent.	<ul> <li>anti-irritant</li> <li>anti-inflammatory</li> <li>soothing</li> <li>preservative-free (self preserving system)</li> </ul>						
Rooibos Herbasec® MPE	218221.09.2		•				
Dry powder extract of rooibos acts as a free radical scavenger, anti-irritant and anti-inflammatory agent. This extract has been tested independently for its activity <i>in vivo</i> on improving hair growth and condition.	improves hair growth & condition     preservative-free (self preserving system)						
Slimming Factor Karkade PF	211200.100.2	•					
A botanical active derived from hibiscus with independent <i>in vitro</i> lab data indicating efficacy in inhibiting lipogenesis or fat storage in cells.	<ul> <li>slimming</li> <li>body-contouring</li> <li>astringent</li> <li>inhibits lipogenesis</li> <li>paraben-free</li> </ul>						

# **Actives**

### usNeo™

 $us Neo^{\mathsf{TM}} \ addresses \ the \ growing \ trend \ for \ effective$ plant-based actives and has an excellent antibacterial profile against Gram positive bacteria in particular those known to cause body odour, while preserving normal skin flora. It is supported by both in vitro and in vivo claims data.

### 400937.00.2

• deodorant & antibacterial active against body odour-forming bacteria

Baby & Sensitive Care Bath & Shower Hair Care Skin Care

• preserves skin flora

# Wheat Herbaprotein™

A high purity, wheat protein hydrolysate obtained by an enzymic digestion process. The product is in a powder form and is water-soluble, preservative-free and 100% plant-derived.

It has attractive functional properties for both skin and hair care with substantiation data, including free radical scavenging, improvement of foam volume and quality (especially in natural formulations), reduction of irritancy of formulations and hair substantivity.

#### 400385.00.2

- repairs damaged hair
- reduces irritancy of formulation
- free radical scavenger
- improves foam
- preservative-free (self preserving system)

#### **Wheat Placenta COS**

Highly active concentrate of wheat bran. Plant-derived alternative to foetal calf serum. *In vitro* claims substantiation for cell stimulation and regeneration.

### 150160.00.2

- cell regeneration
- cell stimulation

# **Botanical Extracts**

# Herbamilk® (paraben-free)

Extensive range of natural plant emulsions with exceptional stability, incorporating plant oils and extracts with a plant-derived emulsifier system. Provide skin pampering and emollient properties in surfactant-based products such as hair care and bath and shower products. Standard range is based on almond oil.

- liquid
- paraben-free
- water-soluble

In addition to our standard almond oil base we also have a range of other

- Available: Cotton, monoi, olive, palm, soya, wheat germ
- Available on request: Exotic oils, fortifying and nourishing oils

# Herbasec® (dry powder extracts)

100% plant-derived dry powder extracts, based on a cold process extraction technology, developed by Lipoid Kosmetik.

- powder
- preservative- & solvent-free
- 100% plant-derived
- water-soluble
- pale colour
- GMO-free

## Herbasol® Complexes

Combinations of various plant extracts, mixed together for specific end user applications. e.g.:

- Alpine Herbs (400548.06.2)
- E Complex, stimulating for skin & scalp (150320.06.2) Customised complexes available on request.

- liquid
- water-soluble

#### Herbasol® Distillates

A range of water-clear plant distillates for use in a wide range of skin and hair care products. Especially for colour-free products.

- liquid
- water-soluble

# Herbasol® Glycolic Extracts (paraben-free versions available)

An unlimited range of aqueous/glycolic plant extracts for use in a wide range of skin and hair care products. The range includes:

- organic plants
- plants from fair trade
- paraben-free (phenoxyethanol and ethyl hexyl
- preservative-free (self preserving system)
- liquid
- water-soluble

Please enquire for availability.

## Herbasol® Extract oil-soluble

An extensive range of oil-soluble plant extracts for use in a wide range of personal care applications. Available in isopropyl myristate, sunflower seed oil and other plant oils.

- liquid
- oil-soluble
- preservative-free (self preserving system)

### Herbasol® Extracts IPA

A range of alcoholic, water-free plant extracts for use in a wide range of personal care applications. Especially suitable for aerosol-spray products. Unpreserved.

- liquid
- · water-free
- preservative-free (self preserving system)

Baby & Sensitive Care Bath & Shower

Skin Care Hair Care

#### Baby & Sensitive Care Bath & Shower Hair Care Oral Care **Botanical Extracts** Herbasol® Fruit & Herbal Vinegars A selection of fruit and herbal vinegars (propylene glycol, glycerine-based) • liquid optimised for personal care applications. water-soluble · Hair care: To remove soap residues and make hair shine; good treatment for paraben-free flaking scalp • Skin care: In cleansers and tonics, to restore acid balance of skin and act as a gentle peeling agent • Bath and shower: A refreshing and cleansing additive Some examples in the range: Apple, blackberry fruit, honey, peach, raspberry, rice, rosemary Herbasol® Fruit Nectars Fruit nectars are stabilised, liquid products developed from concentrated fruit liquid juice in water and propylene glycol or glycerine. The concentrated nature of the · water-soluble nectars is illustrated by very high dry matter values of 15-20% and is indicative of the presence of a high proportion of fresh fruit constituents. Please check for availability. **Herbasol Glycol-free Extracts** Available as Herbasol® Glycerine and oil-soluble extracts, • glycol-free Herbasec® 👁 **Ecoverte Extracts** Herbasol® Ecoverte extracts are in conformity with organic ingredients Ecocert-certified Ecocert standards for Natural and Organic products • liquid and have been certified by Ecocert as organic raw · water-soluble materials. • preservative-free (self preserving system) • 100% of the total ingredients are from Natural Origin • Materials can be used in Ecocert-certified formulations Some examples in the current range: Green tea, lavender, mango, vanilla, white tea Swiss Alpine Plants: Calendula, edelweiss Plants from the South of France: Cherry blossom, fumitory, maritime pine NEW Please enquire for detailed listing. Ethoverte Extracts NEW organic ingredients Herbasol® Ethoverte extracts originate from · Ecocert-certified farmers where fair trade or community trade liquid practices are being employed. water-soluble ingredients are verified by well documented • preservative-free (self preserving system) controls most from organic farming projects are based on transparency, trust, sustainability and success for all partners in the supply chain • collaboration helps marginalised and poor communities developing a stable and profitable business based on trade and not on charity $\bullet$ Outback Spirit $^{\!\top\!\!\!M}$ Botanicals are based on the sustainable harvest of Australian plants. At various stages of the supply chain contributions are made into the Outback Spirit<sup>™</sup> Foundation which supports the development of Indigenous micro-businesses and helps to improve local social facilities Some examples in the range: • Acai 401011.178.2 Araza 401008.178.2 • Carambola 401010.178.2 Desert Lime 400687.416.2 (Outback Spirit<sup>™</sup>) • Guajava 401009.178.2 Kakadu Plum 400684.416.2 (Outback Spirit™) Please enquire for detailed listing of available plants and customised extracts.

Botanical Extracts	Skin Care	Hair Care	Bath & Shower	Baby & Sensitive Care	Oral Care	
Other Extracts from Organic Plants	•	•	•	•		
In addition to the Ecoverte <sup>™</sup> range we offer other extracts based on the following organically grown plants:  Agave, aloe, balm mint, celery, chamomile, echinacea, edelweiss, eyebright, ginkgo, green tea, hawthorn, hay flower, hops, lime tree blossom, mallow, marigold, orchid, pomegranate, rooibos, rosemary, sage, vanilla, white tea.  Please check for availability.  Other organic plants and product forms available upon request.						
Paraben-free Extracts	•	•	•	•		
Many of our standard propylene glycol-based extracts are now available in paraben-free versions. Other extracts that are paraben-free include:  • Herbasol PG/PF glycol extracts preserved with phenoxyethanol and ethyl hexyl glycerine  • Herbasol® Glycerine extracts preserved with potassium sorbate and sodium benzoate  • Herbasol® extracts preserved with >20% ethanol  • Herbasol® Fruit & Herbal Vinegars  • Herbasol® oil-soluble extracts  • Herbasol® oil-soluble extracts  • Herbasmilk®  See also preservative-free versions.						
Preservative-free Extracts	•	•	•	•		
We have the following preservative-free options:  • Herbasol® 80% propylene glycol and 80% butylene glycol  • Herbasol® unpreserved glycerine ③  • Herbasol® unpreserved distillates  • Herbasol® oil-soluble extracts (IPM and plant oils)  • Herbasol® ethanolic extracts (various) ⑤  • Herbasoc® dry extracts ﴿						
Customised Extracts						
We offer a tailor-made service to our customers.  Requests can be made through our website (www.lipoid-kosmetik.com) on our new product development form.
