NATURESCRUB® 🚺

Naturescrub products are exfoliating powders produced from natural based waxes. Naturescrubs are an effective natural alternative to microplastic beads. Their irregular particle shape will provide a polyethylene-like exfoliating agent that is non-irritating to the skin.

Naturescrub C20 and C50 are based on all natural prime #1 yellow carnauba wax. Naturescrub M20 and M50 are based on naturally derived Montan wax. Naturescrub H14, H20 and H50 are based on hydrogenated natural castor oil wax. These substances are listed on IECIC for use in China.

PROPERTIES	TEST METHOD	NATURESCRUB C20*	NATURESCRUB C50*		NATURESCRUB M20		NATURESCRUB M50
Composition (INCI Name)	IR	Copernicia Cerifera (Carnauba) Wax	Copernicia Cerifera (Carnauba) Wax		Glycol Montanate		Glycol Montanate
CAS No(s).		8015-86-9	8015-86-9		73138-45-1		73138-45-1
